# BITKUB METAVERSE OFFICIAL WHITEPAPER 0.7

# XRB GALAXY BITKUB METaverse

## Official Whitepaper

---

XRB Galaxy is a virtual galaxy containing various orbits inside the XRB. MARS (Bitkub Metaverse) is the first colonial and livable planet that we would like everyone to explore the fun and chaos of this world.

Our Galaxy Metaverse will be a Development, Publishing and Operations Platform based on the Blockchain, NFTs and Cryptocurrency. It will be deployed initially on the Bitkub Chain, but will be modified to be cross-chain later in the development cycle.

# XRB GALAXY (BITKUB METaverse)

## Vision

To be the leader in both graphical excellence and chaotic exploration metaverse that everyone can enjoy

## Mission

To create social experience in which users can get together, have fun, explore different areas, unfold the hidden story of XRB, socialize and even play through mini-games.

To provide new opportunity for businesses by integrating with web 3 technology

# STORY OF XRB GALAXY

In the future, Earth will lack the necessary resources to sustain life. In a desperate attempt for survival, Mankind devised a plan to experiment with different species to increase their unique abilities for life on other planets.

These species' primary purpose is to find resources from other planets. One species, rabbits, could cultivate. Unfortunately, their spaceship was struck by the most powerful alien mineral, "Carotium." However, the rabbits gained unrivaled evolutionary powers from this collision and landed on Mars!

The rabbits have created a Colony on their new home planet. They have evolved and become the Universe's greatest cultivators. A new star of hope was born.

10,000 years passed, and Mars is now the "center" of the Universe. Various alien races across the galaxy come to Mars for refuge to guarantee their survival.

This is the story of life on XRB Galaxy.

# WELCOME TO XRB AVATAR
